# GIRLS FROM MARS

## Saturday, April 10, 2027

**GIRLS FROM MARS (Annie Patterson - Vocals, Lauren Janson - Vocals, Snare drum & Wendi Bourne - vocals, guitar) play music from Earth's Swing Era: The songs of Duke Ellington, Nat King Cole, Dorothy Fields -done as you've never heard them before. Beautiful and Original three part female vocals are the hallmark of our sound, and we're backed up by the best instrumental musicians around (Tom Mitchel (guitar; he was the original guitarist in Big Nite Out, and has played and recorded with Dan Hicks, among others.) AND we will be joined by Dave Davies on Trombone, guitar, and vocals. Dave is from Ithica NY and is a fabulous player and entertainer. These are two very special guests, along with our regular guys, Howard Sitron on trumpet, and Ralph Gordon on bass).**
